

EXPRESSION OF INTEREST: LABS FACILITY TOUR

Description: The Critical Care Research Group is pleased to offer an opportunity for registered delegates attending the Asia Pacific ELSO (APELSO) Conference 2017, to be hosted for a tour of our research group facility with opportunity for one on one engagement with our research lead.

Available:

OVINE BRAIN DEATH EXPERIMENT

October 10, 2017 - October 11, 2017

Tuesday, October 10

AM

- ECMO ex-vivo circuit
- Chronic Heart Failure model
- Imaging of micro-circulation and endothelium
- ICETLAB (bioengineering) tour

PM

- Animal research facility tour
- Impact of brain death on leukocytes

Wednesday, October 11

AM

- Animal research facility tour
- Redesigning next gen ICU bedspace
- Global survey of ECMO practice
- ICETLAB (bioengineering) tour

PM

- Ex-vivo lung perfusion
- Heart contractility studies
- Oxygraph – cardiac mitochondria function after brain death

OVINE HEART TRANSPLANT EXPERIMENT

October 16, 2017 – October 17, 2017

Monday, October 16

AM

- Redesigning next gen ICU bedspace
- Global survey of ECMO practice
- Imaging of micro-circulation and endothelium
- Treating ARDS with mesenchymal stem cells
- ICETLAB (bioengineering) tour

PM

- Animal research facility tour
- Impact of brain death on leukocytes

Tuesday, October 17

AM

- **Animal research facility tour**
- **Chronic Heart Failure model**
- **Global survey of ECMO practice**
- **ECMO ex-vivo circuit**
- **ICETLAB (bioengineering) tour**

PM

- **Heart contractility studies**
- **Oxygraph – cardiac mitochondria function after brain death**
